

The screenshot shows a web browser window with the URL <https://www.nobutts.org/tobacco-users-medi-cal-members>. The page features a navigation bar with links for HOME, FREE SERVICES, FREE MATERIALS, FREE TRAINING, and ABOUT US. The main header includes the California Smokers' Helpline logo (1-800-NO-BUTTS) and a search bar. Below the header, there are buttons for SIGN UP FOR: Telephone Counseling, Texting Program, Provider Referral, and Chat Now, along with a large orange button displaying the phone number 800-987-2908. A left sidebar contains a menu with categories: Tobacco Users, Friends and Family, Health Care Providers, Behavioral Health Professionals, Community Partners, Special Projects, and Additional Resources. The main content area features a photograph of a woman with two young boys. To the right of the photo is a teal box with the text "Ready to Quit? Call 1-800-NO-BUTTS (1-800-662-8887) or click here to enroll in free telephone counseling". Below the photo, the heading "Medi-Cal Members" is followed by the sub-heading "Free Telephone Support". The text explains that the helpline can help with quitting smoking and offers online sign-up. A section titled "Getting Quitting Aids From Your Pharmacy" lists three types of aids: NicoDerm CQ patches, Nicorette gum, and Nicorette lozenges, each with a brief description of how they work and their availability.

Call 1-800-NO-BUTTS or click [here](#) to sign up online.

Getting Quitting Aids From Your Pharmacy

In most cases, Medi-Cal members can also get quitting aids from their pharmacy. First, ask your doctor if a quitting aid is right for you and get a prescription. Five quitting aids are on the Medi-Cal Contract Drug List:

- [NicoDerm CQ® patches](#) release a steady stream of nicotine into your body through your skin. They make quitting easier by weaning you off nicotine slowly. Prescriptions are available for 14 weeks.
- [Nicorette® gum](#) when chewed right releases nicotine, which is then absorbed through the lining of the mouth. It helps reduce withdrawal symptoms such as cravings. Prescriptions are available for 14 weeks.
- [Nicorette® lozenges](#) are placed in the mouth like hard candy and releases nicotine through the lining of the mouth as it slowly dissolves. It helps reduce withdrawal symptoms such as cravings. Prescriptions are available
