Working with your pharmacy and pharmacy-based interventions.

The screenshot shows a web browser window with the URL <https://www.nobutts.org/how-to-talk-to-your-patients>. The page header includes the California Smokers' Helpline logo (1-800-NO-BUTTS) and navigation links: HOME, FREE SERVICES, FREE MATERIALS, FREE TRAINING, and ABOUT US. A search bar is located on the right. Below the header, there are buttons for 'SIGN UP FOR:' Telephone Counseling, Texting Program, Provider Referral, and Chat Now, along with a phone number 800-987-2908. The main content area is titled 'Health Care Providers > How to Talk to Your Patients'. On the left, there is a vertical menu with orange buttons for: Tobacco Users, Friends and Family, Health Care Providers, Behavioral Health Professionals, Community Partners, Special Projects, and Additional Resources. The central image shows a male patient talking to a female healthcare provider. On the right, a teal box contains the text: 'Ready to Start Referring Patients? Click here to register for our free web-based referral service.'

How to Talk to Patients About Quitting Smoking

When health care providers provide brief, simple advice about quitting smoking they increase the likelihood that patients will quit and remain quit a year later.¹

The following short, training videos are provided by the Cease Smoking Today (CS2day) partners, and were developed as part of an initiative supported by unrestricted educational grants from Pfizer, Inc. CS2day integrates current science with a thorough assessment of physician/healthcare professional needs into innovative and traditional educational formats.
